Rate Sheet

We want you to be happy! Any work we do will be subject to your approval once we have agreed on the scope of the project. Once you are happy we will bill for the service.

Although we are willing to work on a “per hour” basis, we prefer to agree on a proposed final product and bill for the entire package on approval. This helps you as there is no debate on hours worked – only the product delivered.

Service	Rate/Terms
Consulting – Website design	\$50/hr
Logo Design	\$100 per image
Website “Basic” – design, implementation and consulting. If you need to setup an entire site, including securing a URL and webhosting, these additional costs will be added to the basic rate.	\$800
Web Applications – database support, webforms, listserv, surveys and other systems requiring database support and attendant programming	Starting at \$1000; depending on the scope, a contract may be required. Standard contracts include some amount of consulting time built in to the overall price.
Desktop development using Microsoft Office and VBA	Depending on the scope, a contract may be required. Standard contracts include some amount of consulting time built in to the overall price.
